**1. Do you have an oil/water separator or Grease Removal Device (GRD)?**  Yes  No

An oil/water separator is a device designed to remove oil (e.g. petroleum-based) from the waste system while allowing the remaining wastewater to be discharged to the wastewater collection system by gravity. This type of device may be utilized at mechanical maintenance repair shops, car washes and businesses where floor drains collect motor oil, transmission fluid, lubricating oil, grease, hydraulic oil. etc.

Type of Grease Removal Device (GRD) (check all that apply; skip if #1 is "No")			
<input type="checkbox"/> Outside Grease interceptor	<input type="checkbox"/> Manual grease trap	<input type="checkbox"/> Mechanical GRD	<input type="checkbox"/> Other:
# of units:	How often cleaned: <input type="checkbox"/> Daily <input type="checkbox"/> Weekly <input type="checkbox"/> Monthly <input type="checkbox"/> Bi-Annually <input type="checkbox"/> Annually <input type="checkbox"/> Quarterly		
Serviced by: <input type="checkbox"/> Self <input type="checkbox"/> Hauler		Hauler name (If applicable):	

2. Does your business perform auto repair or maintenance on site, such as oil changes or transmission maintenance?  Yes  No
3. Do you have floor drains connected to the sewer system in the location where auto/equipment maintenance is performed?  Yes  No
4. Do you have a grease barrel or bin used to dispose and/or recycle oil/grease?  Yes  No
5. If "YES" to #4, do you dispose used oil offsite?  Yes  No
6. Is food prepared on site more than one day a week?  Yes  No  
 If "Yes", approximately how many people food is prepared for:  < 10  10-50  >50
7. Are grills or deep fryers used to prepare food more than an average of 3 meals per week?  Yes  No
8. Are dishes, pots and pans washed on site?  Yes  No

- 9. Are there additives placed into the kitchen drains or grease removal device (i.e., enzymes, bacteria, etc.)?  Yes  No
  - 10. Are dairy products rinsed down the sink drains?  Yes  No
  - 11. Are dishes, pots and pans washed on site?  Yes  No
  - 12. Does the business use a distillation process?  Yes  No
  - 13. Does any non-domestic discharge flow from the process into the drains connected to the collection system?  Yes  No
- Approximate volume of non-domestic discharge: \_\_\_\_\_ gallons
- 14. Are there any chemicals used in the distillation process that flow into the drains? If Yes, list chemicals below.  Yes  No
- 
- 

Provide a copy of a plot/plumbing plan. If no professional drawing exists, a hand-drawn copy is acceptable. A blueprint of the facility showing the required information may also be attached. This is NOT required for renewal applications unless specifically requested.

**Payment Information**

There is no application fee for the Fats, Oils, and Grease Waste Discharge Permit. If Hi-Desert Water District Staff determines a permit is needed, your company will be asked to submit a \$135.00 inspection and permitting fee. Check payments should be mailed to the District's Wastewater Reclamation Facility at 58950 Sunnyslope Drive in Yucca Valley, California.

I solemnly affirm under the penalties of perjury, and to the best of my knowledge, information and belief, that the contents of this application are true and complete.
